Do You Know Your Way to the Finish Line?

Wondering if your credits will transfer?

The answer is often yes, but the more important question is: How will your credits transfer? Taking classes that transfer is only part of the equation. You also want to make sure those credits apply toward your intended degree. Transfer maps help students choose the right courses and maximize the credits that count toward degree completion.

Transfer Maps are available for many degrees like Business Administration, Psychology, Biology, English, Child Development, Engineering, and many more! These maps can be found at **TulsaCC.edu/Transfer**

Visit with your academic advisor for help finding the right map for your goals, or to build a custom map if one isn't available yet. Transfer maps are designed using a full-time schedule, but can be customized for part-time with your academic advisor.
